If all animals have been accounted for and the reported Ending Count is different, please indicate in the comment section.

**COMMENTS:** See Transfer Tab/Sheets for details on sections C, D, J, and/or K.

We made choices on euthanasia based on our internal criteria and capabilities. Once we started putting the data into the Maddie's Fund Asilomar spreadsheets, we understood the categories were based on different criteria for some conditions. We had a discussion among the operation leadership and could not say we did not euthanize an animal in the new treatable manageable category (either behaviorally or medically) so we all agreed on a percentage we felt comfortable with. Some examples would be ringworm, sarcoptic mange, dog aggression, diabetes and hyperthyroidism which we believe will fall in Treatable Manageable when our Pet Evaluation matrix is complete. JHS is unable to effectively treat certain medical and behavior issues due to quarantine or stress free treatment capacity or behavior treatment programs.

**I agree that in completing this form, we have used the Maddie's Fund definitions of "Healthy," "Treatable - Manageable," "Treatable - Rehabilitatable," and "Unhealthy & Untreatable" as set forth in the attached document titled, "Maddie's Fund® Categorizations/Definitions of Shelter Animals."**
