\* 8. Please briefly describe the outcomes of your project, including how your project impacted people and/or pets and how you measured/assessed its results.

\* 9. How much funding did you receive from Maddie's Fund for this grant? Please enter the exact amount below. If you don't remember the exact amount, please call Maddie's Fund at 925.310.5450 and we'd be happy to provide this information.

\* 10. Approximately how many additional animal lives were saved as a result of implementing this lifesaving program? (We understand that this number may be higher or lower than your original estimate.)

Think about this number in terms of how this project affected your lifesaving numbers and not simply how many animals were part of the project/program. For example:

- If you offered training classes for people wanting to surrender their pets, don't just look at the number of animals in those classes, but how many of those animals weren't surrendered to the shelter as a result of that class?
- If you are created an adoption marketing campaign that was seen by thousands of people, how many additional animals were adopted?

Enter the number of  
animals

\* 11. Please explain how you calculated this number.

\* 12. Was there anything that surprised you about this project? Anything interesting that you learned from the implementation or results?
